

Inspiration. Guidance. Leadership. ▲ C M A The Power of Alignment®

*CMA partners with individuals and organizations, combining best practices in business and psychological sciences, to help individuals grow and organizations succeed.*

*The Leadership Advantage™ (TLA) is a hands-on learning program for mid to senior level leaders who are ready to take their leadership skills to a higher level.*

**The program inspires breakthroughs for leaders and their organization.**

### **Improve Business Results**

*All program information, experiences and feedback focus on a single objective – helping your organization achieve its business goals – through the development of critical leadership skills.*

### **Develop Key Skills**

*Enhance leadership skills across five (5) competencies: Analysis and Decision Making, Leading and Influencing, Relationships and Teaming, Responsibility and Achievement, and Managing and Developing.*

*Build self awareness of leadership strengths and development needs. An individualized development plan, addressing individual and organizational needs, is created and implemented.*

### **ROI Opportunity**

*Choose an Action Learning Project that, when completed, can improve your organization's performance.*

*Lasting leader networks are created that facilitate continued innovation, collaboration and insight.*

*"It was great to work with the group of future business leaders in the company, to troubleshoot issues and work together on real business and professional issues during the retreat."*

## TLA Outperforms other programs:

### Customized Development

*TLA is designed around the participants. Program curriculum and development plans are tailored to meet participant and organization needs, and are based on leadership assessment results, 360 results, and input from the executive sponsor and participant.*

### Multi-modal Learning

*TLA is not just typical classroom instruction. Workshop sessions include:*

- *Case Studies, discussion, reflection, group activities, and real life practice.*

*Training is designed to facilitate knowledge implementation, skill sustainability, and continuous learning.*

### Addresses Real Organizational Issues

*Apply leadership concepts and tools to address a real organizational issue in a 4 month capstone project chosen by the executive sponsor and participant.*

10% Training  
20% Support  
70% Experience

### The 70-20-10 Rule

*Research<sup>1</sup> indicates that the best development experiences consist of:*

- *70% on-the-job experience (challenging assignments, etc.)*
- *20% support (feedback, mentoring, coaching, etc.)*
- *10% formal training (seminars, webinars, etc.).*

*Unfortunately, many leadership development programs apply the 70-20-10 rule in reverse, with heavy emphasis on formal training, and little or no support or on-the-job experience. As a result, development ends when the leader leaves the classroom.*

*Not this program. The Leadership Advantage™ program closely models the 70-20-10 rule for sustained skill development and on-the-job knowledge transfer well beyond the program. Every program component is tailored to the unique needs of the leader and the organization, making TLA a comprehensive, individualized development experience.*

## The Leadership Advantage Program Experience

# DISCOVER YOUR POTENTIAL

A vintage brass compass with a clear plastic cover is open, revealing its internal needle and degree markings. The compass is placed on a detailed, aged map of a coastal region, likely the Bering Sea area, with labels in Russian and English. The map shows various geographical features like mountains, rivers, and coastlines. The compass's brass casing is polished and reflects light. The overall image has a warm, historical feel, suggesting exploration and discovery.

*"I think this gave them the confidence in knowing that they are looked upon as high-potentials and that they are a part of the organizations' future leadership group. It gave the executive team confidence in knowing we've got some top-notch leaders ready to come in and take over when we have to leave – we won't lose a beat."*

*"The program will give you an edge on others who have not gone through a leadership development program, or who do not get to interact with others in different levels and different positions throughout the company. The schedule may look busy, but the program is awesome at providing support and tools to your advantage to use with co-workers and peers."*

*"Leadership is lifting a person's vision to higher sights, the raising of a person's performance to a higher standard, the building of a personality beyond its normal limitations."*

*- Peter F. Drucker*

# See the Advantage

We designed The Leadership Advantage program to provide exceptional value to both the individual leader and the organization. We invite you to use the scorecard below to compare our program to industry and in-house competitors.
